Blind BIOS Reset

Blind BIOS reset for BioDigitalPC's PC8, PC9, PC10, PC11, and PC12

Insert or power on the BioDigitalPC while pressing and holding down the Esc key on the keyboard for about 15 seconds (to get to the BIOS blindly). Release and follow the directions below:

- 1- Press F3 key, then press enter. (BIOS Factory reset)
- 2- Press F4 key then press enter. (To accept and exit)

Restart the BioDigitalPC and if the BIOS graphic/display setup was changed from its original setting the above instructions will reverse it.
