# GAZOO-1

A **T**actical **R**ugged **A**dvanced **C**omputer **E**nclosure (**TRACE**) is the waterproof wearable computer system that houses the BioDigitalPC® card in a fully sealed IP67 certified aluminum chassis. This rugged mission-critical military application server is built to meet MIL-STD-810G for demanding environments. The GAZOO-1 comes with 4 Nett Warrior 6-Pin connector cables that provide 3 USB 2.0 ports, and power input. The GAZOO-1 provides video output through USB to HDMI adapter.

Once the BioDigitalPC® server card is installed, the GAZOO-1 functions as a fully robust and secure compute platform. The chassis is equipped with a heat sink design, requiring no internal moving parts to cool the system. It works with any BioDigtalPC® card. Proudly made in the USA. **TAA Compliant.**

Portable battery not included.

Tech Specs

SKU	ADDC-GAZOO-1
Size	6.3"L x 3.0" W x 1.5"H
Weight	1.5 lbs
Power	DC input cable 12-36 VDC 17W average use, requires 48W when installing an operating system
System Includes	- (3) USB 2.0 cable - Video output through USB to HDMI adapter

Made in the USA
