

## BioDigitalPC® 12Z

RUNS 15° COOLER THAN THE 12X

### PRODUCT SKU: ADDC-PC12Z-32-1TB

BioDigitalPC® 12Z 32 1TB

A full x86 compute platform including the Intel Whiskey Lake 4 core 8 thread i7 CPU, integrated TPM 2.0, 32GB DDR4, 1TB NVMe SSD, 2 PCIe x1 (Gen 3.0), 4 USB 2.0, 1 USB 3.0, DP++ (HDMI Supported), enclosed in full epoxy making the PC12Z waterproof, dust proof and shock resistant.

Now enhanced with an integrated heatsink for improved thermal performance, operating up to 15°C cooler in rugged fanless enclosures.

TAA COMPLIANT. MADE IN THE USA.  
COO: UNITED STATES.

#### SYSTEM INCLUDES

COPPER HEAT SINK EMBEDDED IN THE EPOXY

Quad core (8v Cores) Intel i7 processor  
32GB of DDR4 RAM

Powered by 5VDC and consumes between 10W and 25W

(4) USB 2.0 and (1) USB 3.0

(2) PCIe x1 Gen 3

DisplayPort++: DP, HDMI, DVI and VGA

Operating Temperature: -40°C to 60°C

1TB NVMe SSD (SED)

vPro Virtualization Support

Trusted Platform Module Version 2.0
