

R8K-ME

The R8K-ME is our R8K-I with a metal enclosure designed and manufactured by ADDC. The enclosure provides cooling for the card and networking components so all you need is to plug in a PC card configured with your software to effortlessly create a network appliance that leverages the BioDigital platform. The R8K-ME comes with a BioDigitalPC® Docking Connector, one USB 2.0 port, one USB 3.0 port, 8 RJ-45 10/100/1000 Mbps Ethernet ports of which 2 ports provide PoE (Power over Ethernet), two RS-232 internal headers, a 5VDC power connector, and a Mini DP++ video connector. Ships with Mini DP++ to HDMI Cable. Proudly made in the USA. **TAA Compliant.**
