# BIODIGITALPC® - M1

ADDC has developed a micro-form factor docking station for use within integrated products such as monitors, tablets, televisions, and micro client setups. Utilizing a small energy footprint, the M1 is the easiest way to integrate into larger platforms while maintaining standard connections.

The M1 comes complete with a BioDigitalPC® docking connector, one USB 3.0 port, three USB 2.0 4-pin headers, one (optional) PCIe x1 connector, a 5VDC power header, a Mini-DisplayPort video connector, and an external 12V PCIe power header.

BioDigitalPC® products encompass a revolutionary computing system which allows for maximum flexibility with minimum footprint, weight, and energy consumption.
Proudly made in the USA. **TAA Compliant.**
