

## BioDigitalPC® 11C

Arnouse Digital Devices Corp. (ADDC) is proud to bring you the BioDigitalPC® 11, our 6th generation BioDigitalPC® x86 computing platform. The BioDigitalPC® 11 family of computers are a credit card sized computing platform equipped with an Intel 7th generation i5, or i7 CPU, up to 16GB of DDR4, and 512GB or 1TB NVMe SSD.

### FEATURES

- ✓ All BioDigitalPC® cards have a waterproof, dustproof, fire-resistant, rugged, epoxy coating, resist the worst operating conditions.
- ✓ The BioDigitalPC® 11C is able to run any x86 operating system, and is backward compatible with older BioDigitalPC® docking stations.
- ✓ Includes the Trusted Platform Module (TPM) 2.0 for the highest computing security.
- ✓ Hot swappable and contains built-in graphics.

### Tech Specs

SKU	ADDC-PC11C-16-128	ADDC-PC11C-16-512	ADDC-PC11C-16-1TB
Processor	i7-7600U	i7-7600U	i7-7600U
# of Cores (Threads)	2 (4)	2 (4)	2 (4)
TDP (CPU/GPU)	7.5W - 25W	7.5W - 25W	7.5W - 25W
USB 2.0	4	4	4
USB 3.0	1	1	1
PCIe	(2) x 1 Gen3	(2) x 1 Gen3	(2) x 1 Gen4
CPU Tjunction	100°	100°	100°
DDR4 RAM	16GB	16GB	16GB
SSD	128GB	512GB NVMe	1TB NVMe
TPM	2.0	2.0	2.0
vPro Support	✓	✓	✓

\*Also available with i3, i5 CPU. Any combination of RAM, CPU, and SSD is available with an MOQ.
