

The R8K

ADDC has developed a small form factor docking station for use within integrated products such as firewalls, routers, and switches. Utilizing a small energy footprint, the R8K allows for reduced R&D costs and quickens the time to market for network heavy scenarios.

The R8K comes with a BioDigitalPC® docking connector, one USB 2.0 port, one USB 2.0 header, eight RJ-45 10/100/1000 Mbps Ethernet connectors, one USB 3.0 port, two RS-232 headers, a 5VDC power connector, and a Mini-DisplayPort video connector.

BioDigitalPC® products encompass a revolutionary computing system which allows for maximum flexibility with minimum footprint, weight and energy consumption.

Proudly made in the USA. **TAA Compliant.**
