PodCom-AV

The PodCom-AV houses the BioDigitalPC® server card in a fully sealed aluminum chassis, classified at a Mil-Spec IP67 level and built to meet Mil-Spec 810G protecting against dust and water intrusion. This rugged mission-critical military application server is durable in demanding environments.

Once the server card is installed, the PodCom functions as a fully robust and secure computing solution. Chassis is equipped with a heat sink design, requiring no internal moving parts to cool the system.

Made in the USA

Tech Specs

SKU	ADDC-PodCom-AV
Size	9.1"L x 5.75" W x 2.2"H
Weight	4.3 lbs (5.5 lbs w/ cables)
Power	6-pin circular connector DC input cable 12-36 VDC
System Includes	- (2) SDI video ports with RGB color output **Mil Spec Cable 1** - (4) Ethernet connection (10/100/1000) - (12) Ethernet connections (10/100) - (8) Serial (RS-232) **Mil Spec Cable 2** - (1) USB 3.0 **Mil Spec Cable 3** - (5) USB 2.0
